

REMARKS

In the aforesaid Office Action, restriction was required with respect to the following inventions:

I. Claims 1-27 drawn to apparatus, and

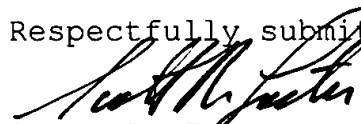

II. Claims 28-38 drawn to a method.

Applicant elects Group I, claims 1-27

In view of the above election, examination of claims 1-27, pertaining to an apparatus, is respectfully requested.

In reviewing the application, it was noted that the reference character "40" had been used for two different elements. The specification has been amended to ascribe -42- to one of the elements. An amended FIG. 15 is enclosed herewith and shows by red ink correction the changed reference character. Examiner's approval of the proposed change in the drawings is respectfully requested.

Respectfully submitted,
